

MOBiLO Building and Construction Toy Made in Germany

All the parts have bright, cheerful colours, and are suitable in every way for the little hands of young children. Mobilo's Stable and Robust Plastic Elements are **100% safe**. Each part conforms to all required governmental standards such as **DIN EN71** and **CE**. Mobilo has received many awards for its pedagogical value, and is recognised as a stable, variable and expandable construction kit.

Mobilo is a building & construction toy. Even toddlers of **2's** and **3's** years old quickly learn to **Hold, Grasp, Pile Up, Balance, Move** and **Roll** all the elements of **Mobilo**. 3-8 year olds can easily construct objects, vehicles and even human beings using their own imagination.

Children learn to understand their immediate environment by copying it with **Mobilo**. **Mobilo** Stimulates their Imagination and Awakens their Creativity. Accepted for its Pedagogical Value in Kindergartens and Play-Schools all over the world.

In addition, it is frequently used to improve the manual skills and psychological development of handicapped children.

Mobilo flexible connectors allow the user to join the different elements together and to expand the system to a complex constructional kit.
